STATUS STAMPS

Design system · all templates

A diagonal watermark sits behind the content in the status colour at **10% opacity**. A small solid status pill under the document title says the same thing at full contrast, so the status still reads in greyscale print and for screen-reader users (the watermark is `aria-hidden`).

PAID — #15803D

Shows when	Balance is R 0,00.
Where	PDF “Copy” + hosted page
Pill	#DCFCE7 / text #166534

PARTIALLY PAID — #B45309

Shows when	0 < paid < total.
Where	PDF “Copy” + hosted page
Pill	#FEF3C7 / text #8A4508

OVERDUE — #B91C1C

Shows when	Unpaid after due date.
Where	Hosted page only — never printed in a PDF
Pill	#FEE2E2 / text #991B1B

DRAFT — #475569

Shows when	Not yet issued.
Where	Always, on every output (PDF, preview, hosted)
Pill	#F1F5F9 / text #334155

VOID — #111827

Shows when	Cancelled after issue.
Where	PDF “Copy” + hosted page
Pill	#E5E7EB / text #111827

STAMP SPEC

Font	Inter 800, uppercase, +0.08em
Size (A4)	120px one word · 76px two words
Frame	0.06em border, 0.14em radius
Rotation	−24°, centred at 50% / 46%
Opacity	10% (text + frame)
Layer	above content, pointer-events none
Pill	Inter 700 11px, +0.08em, 999px radius

The original issued PDF is never stamped. Stamps go only on the regenerated **“Copy”** (§5.3 L408), whose footer starts with **COPY**.
